HARI HARAN V

AI & Data Science Undergraduate | Machine Learning • Generative AI • Full-Stack Development | Founder & CEO, YKNOT

Chengalpattu, Tamil Nadu, India | vengla2006@gmail.com | +91 7339533149 | linkedin.com/in/hari-haran-687956331

SUMMARY

AI & Data Science undergraduate (CGPA 8.7) who builds AI systems people can trust: explainable, secure, and useful beyond the notebook. Work spans a multi-agent smart grid orchestrator with a live digital twin, RAG pipelines that turn messy prescriptions into reliable medication history, and a prompt-injection firewall that judges where instructions come from rather than what they say. Two-time national hackathon champion (plus a runner-up finish) and author of a publication on AI-based medication intelligence, with a full-stack toolkit (LangChain, FastAPI, React, Scikit-learn) and the stage presence to host events for 1,000+ people. Seeking an internship or entry-level role in AI Engineering, Machine Learning, or Data Science.

PROJECTS

GridPulse AI — Autonomous Multi-Agent Smart Grid Orchestrator | *Multi-Agent AI, Forecasting, Digital Twin, Explainable AI*

- Multi-agent AI platform that autonomously monitors, forecasts and rebalances a distributed energy grid in real time, with a live digital-twin dashboard and full decision explainability.

SIFT — Security Intelligence Filtering & Triage | *Cybersecurity, CVE Data, Explainable Ranking*

- Personalised vulnerability triage for small organisations: turns public CVE data into five ranked, explainable actions with no paid feeds and no black-box scores.

Double SIFT — Structural Integrity & Flow Tracking | *AI Security, Prompt-Injection Defense*

- Live, interactive demo where a structural firewall protects an AI email agent from indirect prompt injection by tracking instruction provenance and plan drift, not by interpreting the words.

MediconSolv — Prescription Consolidation System | *Python, FastAPI, OCR, NLP, RAG, MongoDB, React.js*

- Built a RAG pipeline with OCR and NLP entity recognition to consolidate and deduplicate patient prescriptions, plus FastAPI and MongoDB backend (3-member team).

RAG Document & YouTube Assistant — Semantic Search Tool | *Python, LangChain, FAISS, ChromaDB, Gemini API, FastAPI, Streamlit*

- Built an end-to-end RAG pipeline answering natural-language questions from documents and YouTube transcripts via a FastAPI and Streamlit app.

Burnout Guardian — Employee Wellness Prediction | *Python, Scikit-learn, React.js, Node.js, Firebase*

- Trained a Scikit-learn model to predict employee burnout risk and built a React, Node.js and Firebase dashboard for real-time insights.

Smart Retail Analytics — Market Basket Analysis | *Python, Pandas, Scikit-learn, Apriori, Tableau*

- Applied the Apriori algorithm to retail transactions to uncover purchasing patterns and built Tableau dashboards for sales trends.

Additional Projects: RentFlow — rental management SaaS with automated tracking and Razorpay payments. Alumni Connect — alumni-student networking platform. Student Performance Prediction — classification/regression for academic intervention. Aura Jewellery — AI-enabled jewellery e-commerce platform.

ACHIEVEMENTS, HACKATHONS & PUBLICATIONS

- **Neurobots National Level Hackathon 2026** — IES College of Engineering, Thrissur — 1st Prize (₹1,00,000).
- **National Level Hackathon Winner — FORGEX AI 2026** — Erode Sengunthar Engineering College — 1st Prize, with internship offers from three companies.
- **NEXORA National Hackathon 2026** — HackHere, SNS iHub Coimbatore — 2nd Prize, Cyber Security Track.
- Final Winner of the **MyBharat National Budget Quest 2026 (national-level)**, earning selection for a direct interaction with the Hon'ble Prime Minister of India.
- Selected among 10 students to represent Anna University at the **State-Level NSS Special Camp** for leadership and service.
- Maintaining a CGPA of 8.7/10 while independently building **7+ AI/ML projects** spanning ML, Generative AI, RAG, and full-stack AI applications.
- ***Hackathons:*** Participated in the Smart India Hackathon (SIH) Internal Hackathon, building an AI-driven prototype under rapid-prototyping constraints; also ***:*** Participated in a HackTriX 2025 participant, collaborating in a cross-functional team to design and implement an innovative technology solution.
- ***Publication:*** **MediconSolv** — AI-Based Prescription Consolidation & Medication Intelligence System

SKILLS

Programming: Python , C ,C++, SQL, JavaScript, HTML, CSS
Machine Learning: Supervised Learning (Regression, Classification), Unsupervised Learning (Clustering), Association Rule Mining (Apriori), Feature Engineering, Model Training & Evaluation, Decision Trees, Exploratory Data Analysis (EDA), Predictive Analytics
Generative AI & NLP: Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, Text Embeddings, Semantic Search, Named Entity Recognition (NER), OCR, Google Gemini API
AI Frameworks & Libraries: LangChain, Scikit-learn, Pandas, NumPy, Streamlit
Vector Databases: FAISS, ChromaDB
Backend & Deployment: FastAPI, REST APIs, Node.js, Express.js, React.js, MongoDB, Firebase, Cloud Computing (fundamentals)
Data Visualization & Tools: Tableau, Power BI ,Git, GitHub
Professional Skills: Leadership, Communication, Public Speaking, Project Management, Team Collaboration, Problem Solving

EXPERIENCE

Student Intern — Skill Ladders *April 2026 – October 2026, India*

- Completed hands-on AI & Machine Learning training covering data preprocessing, visualization, Linear Regression, Decision Trees, and Clustering on real-world datasets.
- Internship completion certified by Skill Ladders in collaboration with Kshitij 2026 of IIT Kharagpur.

EDUCATION

B.Tech, Artificial Intelligence and Data Science — SRM Valliammai Engineering College *Chengalpattu, India | Class of 2028 | CGPA: 8.7*

CERTIFICATIONS & COURSEWORK

- GenAI Powered Data Analytics Job Simulation — Tata, Oct 2026
- Artificial Intelligence and Machine Learning (Course Completion) — Skill Ladders in collaboration with Kshitij 2026, IIT Kharagpur, Oct 2026
- Generative AI Engineering: Foundations, RAG & Deployment — HCL GUVI, 2026
- The AI Skills You Need to Stay Relevant in the Next 2 Years — WSCUBE TECH, 2026
- Introduction to Cloud Computing — SkillUp, 2026

LEADERSHIP & INVOLVEMENT

- College Host, SRM VEC College Day 2026 — Hosted a 1,000+ attendee event, delivering 50+ stage announcements while coordinating 20+ faculty and performers.
- College Coordinator, SRM TamilPerayam — Paarivendhar Student Tamil Association, SRM Institute of Science and Technology; selected as College Coordinator for SRM Valliammai Engineering College.
- NSS Volunteer (2024–Present) — Contributed 200+ service hours; selected among 10 students university-wide for the State-Level NSS Special Camp.
